WHY FLY

Race weekends put heavy traffic on the roads around every major circuit. A helicopter moves a team, a sponsor or a hospitality party straight to the circuit and home again.

We arrange motor racing charter for single parties, hospitality shuttles and team movements, from London and from around the UK.

Sunrise and sunset on the 15th of each month, UK clock time. Helicopters fly by sight and cannot use an unlit site after dark, so the last flight of the day is planned back from sunset. If a flight is cancelled because of the weather, you pay nothing.

HOW THE BOOKING WORKS

1. Tell us the day and the party. Send the date, where you will start from, how many are travelling and roughly when you want to be at the circuit. We reply the same business day with the helicopter options and one fully inclusive price.

2. We arrange the landing. We agree the landing at the circuit's helipad or a nearby site and the arrival and departure slots, and we pass on any landing fee at cost. The arrangements are confirmed to you in writing before you pay.

3. Confirm and pay. You confirm the option you want. Your booking confirmation sets out the flight times, the aircraft type and the cancellation terms, and the aircraft and crew are then secured for your date.

4. The day itself. We email your schedule at least 48 hours before, with the heliport address and directions. Arrive at the heliport about ten minutes before departure.

5. Flying home. We agree the pick-up time with you in advance and keep it flexible where the venue allows, so the helicopter waits for you rather than the other way round.

WORTH KNOWING

- ☐ Tell us the circuit, the meeting and the number travelling.
- ☐ For the British Grand Prix weekend, see our Silverstone page for the details.
- ☐ Equipment and kit can be bulky: tell us in advance.
- ☐ Luggage space is limited and varies with the helicopter and the number of passengers: a soft bag each is easy, hard cases and golf bags need telling us about when you ask for the quote.
- ☐ Helicopters fly under visual flight rules, so cloud base, visibility and wind decide whether a flight can go. If the flight is cancelled because of the weather, you pay nothing. We check the forecast with you the day before and again on the morning.
