WHY FLY

Ascot is only a short flight from central London, so the journey takes a fraction of the time by road and the difference is greatest at the times everyone else is travelling.

Many guests fly from Battersea, Biggin Hill or Farnborough and are on the racecourse side before the first race. Parties with several guest groups often use a shuttle so everyone arrives together and leaves when they choose.

HOW THE BOOKING WORKS

1. Tell us the day and the party. Send the date, where you will start from, how many are travelling and roughly when you want to be at Ascot. We reply the same business day with the helicopter options and one fully inclusive price.

2. We arrange the landing. We agree the landing site near the racecourse and the arrival and departure slots, and we pass on any landing fee at cost. The arrangements are confirmed to you in writing before you pay.

3. Confirm and pay. You confirm the option you want. Your booking confirmation sets out the flight times, the aircraft type and the cancellation terms, and the aircraft and crew are then secured for your date.

4. The day itself. We email your schedule at least 48 hours before, with the heliport address and directions. Arrive at the heliport about ten minutes before departure.

5. Flying home. We agree the pick-up time with you in advance and keep it flexible where the venue allows, so the helicopter waits for you rather than the other way round.

WORTH KNOWING

- Royal Ascot week is one of the busiest charter weeks of the summer: send your date early and we will tell you what is available.
- Tell us about everyone in the party. Weights matter for a helicopter, and a larger party may need the larger aircraft or two helicopters.
- Keep your return flexible. We agree a pick-up window with you rather than a single minute.
- Luggage space is limited and varies with the helicopter and the number of passengers: a soft bag each is easy, hard cases and golf bags need telling us about when you ask for the quote.
- Helicopters fly under visual flight rules, so cloud base, visibility and wind decide whether a flight can go. If the flight is cancelled because of the weather, you pay nothing. We check the forecast with you the day before and again on the morning.
